

Guardians

F E S T I V A L

8. - 10. Avgust 2025 • Kostel, sLOVEinja • www.guardiansfestival.com

Festival that unites people who share a vision of a more loving world!

Guardians festival is a three-day, family-friendly festival in pristine nature. Festival unites individuals who share a vision of a more loving world - a world enriched with love, peace, unity, co-creation, and music.

Our vision is to bring to life the world we all dream of during the festival - an experience so profound that every participant carries its essence into their daily life, inspiring them to create a more loving world wherever they go.

We are dedicated to creating a safe, healing space where our inner guardian is awaked and hearts can open to the journey of spiritual self-discovery and the co-creation of a more loving and peaceful world.

Festival will be held in English, with the exception of a few workshops.

The festival will feature performances by Chantress Seba, Malte Marten, Natan Rabin, J Pool and many others.
